AWAZ Cumbria is looking for volunteers to provide English language support for individuals from ethnic minority groups. It might be helping:

- An individual who feels isolated because they don't have the confidence to speak English
- A child struggling to keep up with the language in the classroom
- A parent struggling to communicate with the school and other parents

If you have some spare time and want to volunteer to help with English Language Support then book your volunteer place today to find out more about this Cumbria Community Integration Project.
